

# AI & Machine Learning

Direct Hire | Contract | SoW

*Artificial Intelligence and Machine Learning (AI/ML) are reshaping the business world, offering unparalleled opportunities for growth, innovation, and competitive advantage. As pivotal drivers of modern technology strategies, AI/ML disciplines demand a new caliber of expertise – professionals who not only master the intricacies of intelligent systems but can also steer significant investments toward transformative outcomes.*

*Leveraging our market leading brand within Emerging Technology we unlock both passive & active candidates at pace, **cutting time to hire by up to 50%** and **ensuring your AI roadmap stays on track.***

## AI/Machine Learning & Data Science

- AI Engineer
- Machine Learning Engineer
- Data Scientist
- Neural Networks/Deep Learning Engineer
- GenAI Engineer
- AI/ML & Data Science Leadership (Director/VP/Head of)

## Computer Vision & Natural Language Processing

- AI Imaging Engineer
- NLP Engineering
- Perception Engineer
- Computer Vision Engineer

## AI/ML Operations & Software Engineering

- MLOps Engineer
- LLMOps Engineer
- DataOps Engineer
- Software Engineer (ML, Autonomous Vehicles, Robotics)

## Research

- AI Researcher
- Machine Learning Researcher
